### Christmas Party 2012

I'm glad to see the snow held off for later in the month so we would have a White Christmas. With the snow on the ground now it gives each of us more time to work in our shops. Hope you was able to make that special gift for that person on your list. I haven't been in my shop for the past week & half because the company that I work for wanted me to work 4 hours at Gordman's. So I have been working 2 jobs in a day, so by the time I got home I was too tired to work in my shop. Now I'm back to one job for 4 hours a day.

I want to thank Dave Turner for all that he did this past year in leading the Cedar Valley Woodworkers Club. I know I have Big shoes to fill after the great job Dave did. I have a Great Board that I will be depending on to guide me & help me to make 2013 a Great year for the Wood Club.

I have been a member of the Wood club for 4 years now. The first year & a half I didn't get to come that much because of a job I had. Now I have a part time job that I do of a morning, so I have my evenings open & I can make it to the meetings. I know I better show up seeing I'm the President.

Here it is almost 2013. I want to thank each one of you that showed up for the Cedar Valley Wood Club Christmas Party on December 12, 2012. We had a really good time this year. The food was delicious like the past years. Thank you to all the people that work so hard to get everything worked out to make our room so nice.

What do you like to build in your shop? I like to build small boxes but even at that it seems like I am building other things. Some of these days I'll be able to build some small boxes. The Angels that I help build for the Scroll Saw Club & table decorations were done on the scroll saw. I hadn't ran my scroll saw for at least 15 or more years, so it took me longer to do mine than the other people that run it more than I did. I have an RBI 20" Hawk scroll saw.

This year I'm really excited to see all the projects that You as member will bring in to show to the rest of us. I really enjoy the Show & Tell to see what you are making.
