Cedar Valley Woodworkers

This year is flying by, it is almost June, and this year will soon be over. We need to think about the future of the club. We have about 100 members with a dozen board and appointed members. We are short a second Vice President this year. We will need two members to fill Vice President and second Vices President next year. Please think about what you can do for the club.

Being on the board you get to know members better thru the board meeting. Each one of the board members plays an important part in the growth of the club. I would like to thank all of them for the contributions they have made. Planning demos and meeting new people is another benefit of being on the board. I Hope you enjoyed Black and Decker coming last month thanks to Sid. They were really grateful for feedback that we supplied to them and want to keep in contact and come again. Jim and I enjoyed talking to the guys about there jobs, shops and interests. If you ever come across an interesting individual or group that you feel the club would enjoy hearing about let us know. I have made several friends and have learned a lot from being on the board. We are always looking for demonstrations, we have plans for the rest of this year but there is next year.

this September, are you planning on putting in an entry? Are you making a toy for the Salvation Army? Three years ago when I was President, we made over 100 items, I was so proud of our club. I would like to see us beat that record. Could you make a toy out of your 2X4 project to give to the Salvation Army or another item to donate to the Food Bank next April? You may have as many entries in the 2X4 contest as you like just as long as you use one standard 8 foot 2X4. The Cattle Congress has offered to have a woodworking contest this year. Are you planning on making an item for that? If not would you be willing to judge the contest. They would like to have three judges.

Each of you makes a difference in our club. So think about where you would like to see the club in the future. This year the club will be 10 years old. Dan Dunnwald dreamed of having a club like this, where it gave back to the community, and taught each other new skills. He would be proud of what he started, I know I am.
